

The University of Aberdeen has installed 68 moorings throughout the Moray Firth. Below are a map and a table with the locations of these moorings. All of these moorings are now in the water and the positions in the table are as-laid. Positions are given referenced to WGS84 in degrees and decimal minutes.

The moorings hold research equipment that records echolocation clicks of dolphins and porpoises.

They are licensed to remain in the water until July 2011.

Moorings have 6ft Dhan buoy surface markers, with large orange floats and radar reflectors. Please see the photograph below of surface markers and also of the equipment being moored.

All enquiries should be made to either Kate Brookes ([k.brookes@abdn.ac.uk](mailto:k.brookes@abdn.ac.uk) 01224 274425) or Tim Barton ([t.r.barton@abdn.ac.uk](mailto:t.r.barton@abdn.ac.uk) 01381 600548).
